> Scalable, Configurable
E-Commerce Solutions

Complete Solutions for Every Aspect

Inefficient e-commerce processes can impact
customer satisfaction and,

Datalogic offers four scalable, configurable solutions to automate every aspect of the e-commerce life cycle from identification hardware and FAST suite software integrated with 3rd party equipment and services, and a team to develop, integrate, install and support the e-commerce solution you need.

FULFILLMENT SOLUTIONS ▾

PUT-TO-LIGHT SYSTEM

Fill more orders faster and more accurately with Datalogic's Put-to-Light Order System, a semi-automated order fulfillment solution for sortation of batch-picked product into individual orders via data-driven, light-directed technology.

- Improve efficiency by picking products in batches and full cases
- Confirm products picked are required for each order
- Sort products using easy-to-see displays featuring product type and quantity needed
- Reduce labor in both pick and pack operations
- Improve accuracy through data-driven sortation

Automated in-motion
labeling

Comprehensive
automated sortation
control

Datalogic's Flexible Automation Solutions
have been used by leading retailers around
the world for more than 20 years and are
essential for e-commerce success.

AUTOMATED SORTING SYSTEM

Datalogic's Sort-to-Order system leverages the efficiency of batch and full case picking with fully automated item sortation in a solution perfect for businesses with large numbers of orders and/or orders with large quantities of similar product.

- Flexible, modular, high-density design maximizes available space
- Process orders simultaneously in waves of up to a hundred or more orders
- Fully-automated sortation virtually eliminates the costly rework associated with picking errors and manual sortation
- Ideal for handling jewelry, cosmetics, pharmaceuticals and other small items

Impact of the E-Commerce Life Cycle

can have costly effects on your resources, and ultimately, your bottom line.

cycle - from sorting to manifesting to shipping. With a combination of our own industry-leading automatic equipment and a nationwide network of 24/7 technical support Datalogic is uniquely qualified to work with you to design, implement and deliver your products to your customers efficiently and accurately.

SHIPPING SOLUTIONS ✓

MANIFESTING PACKING STATION

Ideal for businesses new to e-commerce or transitioning to automation, Datalogic's Manifesting Packing Station is a flexible, scalable solution offering order verification, rate shopping, manifesting and carton labeling designed to improve order accuracy and reduce shipping costs.

- Guarantee the items picked match the order received every time
- Meet service standards and reduce your shipping costs by using rate shopping
- Add equipment, carriers and stations as your business grows
- **ProShip** multi-carrier parcel shipping solution

Automation Tools (FAST) software has become the foundation for all of our shipping solutions

Automated, high volume, in-motion weighing

Integrates new automation with existing IT infrastructure

AUTOMATED MANIFESTING AND SORTING

Datalogic's Automated Manifesting and Sorting system is a fully-integrated, fully-automated solution combining product identification and dimensioning, rate shopping, label printing and application and item sortation to provide the perfect shipping solution for businesses with a large volume of daily shipping commitments.

- Fully-integrated Dimension/Weigh/ Scan
- **ProShip** multi-carrier parcel shipping solution
- Automated label print & apply
- Sort to multiple pallet locations or carrier destinations
- Built-in options for error handling
- Maximize shipping dock efficiency
- Greatest accuracy with the greatest capacity
